Introduction

Industria provides technical and practical solutions for aerospace and industrial applications. By holding extensive stocks, Industria provides a timely service to customers across UK and beyond.

Quality

We only stock the best.

Delivery

Same day and next day delivery service.

Technical support

Not sure what product you require?
Call us for expert advice.

Outstanding value & exceptional quality

Industria Bearings & Transmissions provides a timely distribution service for a wide range of quality bearings, engineering plastics, adhesives, chain and conveyor products. A wealth of knowledge and experience means that Industria can provide standard and non-standard product ranges, proprietary parts and specials to meet customer requirements when and where they are needed.

Our aerospace division is the nominated bearing source for Leonardo Helicopters at Yeovil, as well as their network of sub-contractors across UK and Europe. GKN Aerospace, Messier-Dowty, BAE Military, BAE Civil Regional Aircraft, Bombardier, AT Engine Controls and Triumph Controls are also found among our list of prestigious customers. Strategic inventory planning and investment ensures that customer requirements are satisfied without delay.
